Education

The Cooper Union for the Advancement of Science and Art

New York City, NY

Bachelor of Engineering in Electrical Engineering, Bioengineering Minor

Aug 2022 – May 2026

- Half Tuition Scholarship | Myron Coe Scholarship | Full Tuition Scholarship 2025-2026
- Courses: Frequentist Machine Learning, Digital Signal Processing, Communication Theory, Computer Architecture, Integrated Circuit Engineering, Theoretical Neuroscience, Medical Imaging, Bio-Instrumentation & Sensing

Work Experience

Data and AI Intern | Hanwha TotalEnergies Petrochemical

May 2024 – Aug 2024

PwC • Seoul, South Korea

- Developed and optimized advanced time-series forecasting models utilizing GluonTS, Chronos, and Darts Python libraries to generate price predictions for flagship petrochemical products with a 3-month forecasting horizon.
- Refactored backend data pipelines in Django, transitioning from MongoDB to ClickHouse and improving performance.
- Built a Django service that automates article aggregation via private and public APIs, analytically integrating forecasts and market indicators to enhance LLM-driven sentiment analysis, ultimately delivering actionable insights to analysts.

Teacher Assistant | Design and Drawing

Jun 2023 – Aug 2023

The Cooper Union • New York, NY

- Instructed 24 students in engineering design fundamentals, circuit design, Arduino programming, and Onshape CAD.
- Led workshops on Arduinos and circuit design, culminating in students building 3D-printed 4-DoF robotic arms.

Extracurricular Activities

Founder/President | The Pre-Medical & Pre-Dental Society

Sep 2024 – Present

The Cooper Union • New York, NY

- Established a support network for pre-medical and pre-dental students, bridging gaps in guidance at Cooper Union.
- Organized and led events, including a blood drive that resulted in 37 whole blood donations, and alumni networking sessions that successfully connected students with current medical school students and healthcare professionals.

Project Lead | Bioengineering Vertically Integrated Projects

Sep 2022 – Present

The Cooper Union • New York, NY

- Building open-source robotic arms for direct human-robot interaction, using Mediapipe and OpenCV Python libraries for pose landmark detection and ROS2 for the kinematic mapping of joint positions to the OpenMANIPULATOR-X system.
- Simulated real-time systems in Gazebo using MoveIt2 and ros2_control for collision detection and motion planning.
- Designed and fabricated a PCB in Altium for an eTextile sensor, presented at the 2024 ASTM International Exo Games.

Research Assistant | Mechanical Exposure Study

Feb 2024 – Aug 2024

Mount Sinai • New York, NY

- Developed data-processing pipelines in MATLAB and Python to interpret IMU data with quaternions, analyzing the mechanical stress on joints with the consideration of subtle anatomical movements like supination and pronation.
- Refined the methodology and analysis of the study, introducing an algorithmic labeling system that parsed complex physical tasks into more precise categories, allowing for the separate assay of concentrated movements and tasks.

Shadow | Dr. Steve Doh (Anesthesiologist)

Jun 2023 – Jul 2023

St. Joseph's Medical Center • Yonkers, NY

- Observed medical procedures, including endoscopies, laparoscopies, lithotripsies, orthopedic, and open surgeries.
- Gained insight into medical equipment, from ultrasound and anesthesia machines to robotic-arm assisted surgeries.

Projects

Theoretical Neuroscience Modeling

Jan 2025 – May 2025

- Developed computational models, from neural encoding and decoding to the Hodgkin-Huxley model and cable theory.

Delay Locked Loop (DLL)

Apr 2025 – May 2025

- Designed schematic and layout of DLL in Cadence Virtuoso, validating functionality with Verilog-A behavioral simulation.

Skills

- Programming: Python, MATLAB, Rust, C, C++, Verilog, VHDL, Git, Docker, JavaScript, SQL
- Software: Virtuoso, LTspice, Altium, Vivado, ROS2, Gazebo, Blender, Onshape, Fusion360, Inventor
- Certification: NYS EMT, CPR
